See Section III for additional eligibility information.

Agency Name

Environmental Protection Agency

Description

This notice announces the availability of funds and solicits from eligible entities project proposals to receive financial assistance through the Community Action for a Renewed Environment (CARE) program. CARE is a unique community-based, community-driven, multimedia demonstration program designed to help communities understand and reduce risks due to toxics and environmental pollutants from all sources. The CARE grant program works with the eligible entities to help their communities form collaborative partnerships, develop a comprehensive understanding of the many sources of risk from toxics and environmental pollutants, set priorities, and identify and carry out projects to reduce risks through collaborative action at the local level. CARE's long-term goal is to help communities build self-sustaining, community-based partnerships that will continue to improve human health and local environments into the future. This is the fourth year requesting proposals for the CARE grant program; the first was in the spring of 2005.
