STATEWIDE							
Parks and Recreation Division 2009-2019 Strategic Plan "Sustaining 90 Years of Excellence"	DNRE	state	2009	state	overall management and planning of state parks, recreation areas, linear parks, scenic sites, harbors, recreational locks, and boating access sites	http://www.michigan.gov/documents/dnr/COMPLETE_DOCUMENT_Signed_279037_7.pdf	Paul Curtis, Vicki Anthes, Mary Nardo, William Boik, Chuck Nelson
Michigan's 2008-2012 Statewide Comprehensive Outdoor Recreation Plan (SCORP)	DNRE	state	2008	state	Under the federal Land and Water Conservation Fund (LWCF) program, Michigan makes money available to local units of government and other public agencies to acquire land and develop facilities for public outdoor recreation. In order to continue it's eligibility to receive LWCF funding, the DNR must update its current recreation plan.	http://www.michigan.gov/dnr/0,1607,7-153-10366_37984-176508--,00.html	
DNRE Ecoregional Plans	DNRE	state	EUP WUP NLP SLP	state	Strategies for sustainable resource planning and management ; utilize principles of ecosystem mgmt, GIS, and adaptive management techniques to sustain the diversity and productivity of Michigan's natural resources; inform State Forest Mgmt Plans	www.michigan.gov/dnr/0,1607,7-153-10366_11865---,00.html	
DNRE Biodiversity Conservation Planning Process (BCPP)	DNRE	state	NLP WUP EUP SLP	state	Establish a network of functional representative MI ecosystems that will conserve, restore and protect native biological diversity . Focus is on DNRE-administered lands, but cooperation with other landowners is essential; 10-year review cycle.	www.michigan.gov/dnr/0,1607,7-153-30301_30505_33935-105947--,00.html www.michigan.gov/documents/dnr/Implementation_plan_summary_268286_7.pdf	
1. DNRE State Forest Mgmt Plan (2006 -), 2. DNRE Regional State Forest Mgmt. Plans 3. DNRE Annual Plan of Work	DNRE	state	NLP WUP EUP SLP	state	3-tiered planning structure for mgmt of Michigan's State Forest resources: statewide, 4 regional operational plans completed by ecoteams, and unit level prescriptions from compartment reviews as summarized in the Annual Plan of Work	www.michigan.gov/documents/dnr/MichigansStateForestMgtStrategy_215508_7.pdf	

Southeast Michigan DRAFT

Game/Wildlife Area Wildlife Mgmt Strategy; Wildlife Action Plan	DNRE	state	2001 -	state	Framework and set of mgmt tools to enable conservation partners to implement a long-term holistic conservation approach for all aquatic and terrestrial wildlife species.	www.michigan.gov/dnr/0,1607,7-153-10370_30909---,00.html	
Fisheries Mgmt Strategy Basin Assessments River Mgmt Plans	DNRE	state		state	Fisheries Division is committed to managing for a healthy aquatic environment while providing the best fishing opportunities possible. Info on dams, fish disease, fish ladders and weirs, tagged fish, habitat mgmt, research	www.michigan.gov/dnr/0,1607,7-153-30301_31431---,00.html	
State Parks and Boating Mgmt. Strategy (zoning process)	DNRE	state	2009		10-year plan providing direction for programs, operations and management for Parks and Boating programs of Parks and Rec Division.	www.michigan.gov/dnr/0,1607,7-153-10365_45524---,00.html	
Species plans (deer, elk, bear, wolf, Massasauga rattlesnake, Karner Blue Butterfly, Kirtland's Warbler, Prairie fen/Mitchell's Satyr HCP)	DNRE	state	various		species-specific land management plans to provide/restore habitat for individual species populations		
DNRE Deer Management Areas	DNRE	state	2010	state	To prepare a strategic management plan for deer, issues and perspectives needed to be identified, science-based information provided and stakeholder perspectives explored. The deer planning team implemented a planning process, which was used to develop a citizen-approved strategic deer management plan.	http://www.michigan.gov/dnr/0,1607,7-153-10363_41153---,00.html	
Coastal Zone Program's Draft Coastal and Estuarine Land Conservation Plan	DNRE			Apr. 2008 draft	federal requirement for NOAA's CELCP funding	http://www.michigan.gov/documents/deq/deq-ess-clm-DraftCELCP-May07_211204_7.pdf	
Potential Conservation Areas. (places on the landscape dominated by native veg that have levels of potential for harboring high quality nat. areas and unique nat. features)	MNFI		as needed		Sites are ranked based on 7 criteria developed by MNFI: total size of site, size of core area, stream corridor presence, landscape connectivity, restorability of	http://web4.msue.msu.edu/mnfi/services/landuse.cfm	

Biological-rarity Index / Conservation Rank	MNFI		as needed		Tool to evaluate the relative conservation values of different areas . An area's conservation value is based on the conservation ranks of the known occurrences in the area; Rates sections based on frequency, state rank, global rank, and viability rank of EO's.	http://web4.msue.msu.edu/mnfi/data/rarityindex.cfm	
Elemental occurrence data	MNFI	state	annual		raw occurrence data for plants and animals	http://web4.msue.msu.edu/mnfi/data/county.cfm	
Important Bird Areas	Audubon	state	2010		identify and conserve areas that are vital to birds and other biodiversity	http://www.audubon.org/bird/iba/michigan/	
Areas of Concern	US EPA	state			severly degraded areas of the Great Lakes ; fail to meet the general or specific objectives of the agreement where such failure has caused or is likely to cause impairment of beneficial use of the area's ability to support aquatic life.	www.epa.gov/glnpo/aoc/	
Prairie Pothole Joint Venture	NA Waterfowl Mgmt Plan				Protect in perpetuity 1.4 million acres of high priority wetlands at risk (small and shallow wetlands less than 1 acre in size that are totally or partially embedded in cropland and which are currently unprotected) Protect in perpetuity 10.4 million acres of priority (over 55 acres in size) grassland	www.ppjv.org/goals2.htm	
Healing Our Waters	NWF	Great Lakes states			comprehensive restoration plan that will modernize sewage treatment, clean-up polluted harbors, restore wetlands, and prevent unwanted, new species from invading the Great Lakes.	http://online.nwf.org/site/PageServer?pagename=glnrc_restoration	

Southeast Michigan DRAFT

Michigan Karner Blue Butterfly Habitat Conservation Plan	DNRE	USFWS	2009	state	facilitate the conservation of the Oak Savanna Ecosystem, Karner blue butter (KBB) and other associated species of concern on non-federal land in MI. Outlines activities that will be conducted to maintain the early-successional habitat conditions necessary to support savanna species and communities. Integrates diverse land uses with conservation objectives by outlining measures to avoid, minimize and mitigate take of KBB and other species that could be caused by activities in occupied KBB habitat.	http://www.fws.gov/midwest/endangered/permits/hcp/kbb_mi/index.html	Michigan Department of Natural Resources Wildlife Division Stevens T. Detroit Non-motorized Transportation Master Plan	Giffels-Webster, along with Archive DS, Carter & Burgess, and Brogan & Partners	City of Detroit Traffic Engineering Division, Dept of Public Works	Jun-06	SE	These green threads are a vision beyond parks, plants, and the visual aspects of the past. The new urban trails encompass transportation, urban wildlife, flood control, utilities, education, neighborhood planning, and other threads of the urban fabric. Extensive community involvement helped clarify the dynamics of various corridors and uncover community treasures, landmarks, destinations, and neighborhood resources. The urban trails connect diverse and incompatible land uses and bridge the isolation of car-based planning and architectural monuments. Accordingly, the Urban Non-Motorized Transportation Master Plan has become a vital component of a world-class city and affirms the continuing commitment in neighborhood revitalization	http://208.112.94.121/Detroit%20Non-Motorized%20Master%20Plan.id.40.htm

<p>Tuscola County</p>							

Tuscola County General Development Plan	Tuscola Co. Planning Commission	Tuscola County	May-08	SE	This plan is the culmination of the third phase of a planning program that began in 1996. The long-range planning program was initiated for the purpose of updating the first General Development Plan, adopted in 1974. The 1st phase of the 1996 program led to the adoption of a Vision and Policy Plan in January 1998. The 2nd phase was the General Development Plan of 2002. The Tuscola Co.General Development Plan of 2008 was developed using the principal that it should be based upon a "bottom-up" rather than "top-down" approach. In other words, the Plan would be based upon the following assumptions: a. The most effective planning and land use controls are accomplished at the local level; b. Build upon the strength of all local planning efforts to date in the County; and c. The County Plan is designed to strengthen local planning.	http://www.tuscolacounty.org/planning%20commission/forms/tcgdpf.pdf
